Education

B.Tech in Computer Science, VIT Vellore -- Aug 2021 - Present (Expected 2025)

CGPA: 8.7/10

Projects

- Campus Marketplace: Built REST APIs with Express and MongoDB to let students buy and sell used textbooks; handled auth with JWT and bcrypt.
- Built the entire client-side using React with reusable component patterns and hooks; state handled with Context API.
- Responsible for deploying the project on a college server and writing the README/setup docs for teammates.

Experience

Frontend Intern, PixelForge Studios -- Jun 2023 to Aug 2023

- Converted Figma designs into pixel-accurate, responsive layouts.
- Worked closely with backend team to consume their APIs and handle loading and error states gracefully.

Skills

JavaScript (ES6+), React, Express, MongoDB, HTML/CSS, Git, Postman, basic Python. Comfortable working in a fast environment with tight deadlines.
