My Journey So Far

Android Developer Intern, AppNest Labs -- Mar 2023 - Jul 2023

- Built and shipped two features for a food delivery Android app using Kotlin and Jetpack Compose.
- Integrated Firebase for auth, push notifications, and Firestore for order history.
- Fixed crash reports using Firebase Crashlytics and improved app rating from 3.9 to 4.3 during the internship.

Education

B.Tech Computer Science, Cochin University -- 2020-2024

Skills

Kotlin, Java, Jetpack Compose, Firebase, Android Studio, Git.

All experience is on mobile (Android); have not built a web frontend or a traditional server-side REST API outside of Firebase's managed backend.
